

# PRODUCT CERTIFICATE

BCCA declares that has been established that the applicant

**DYKA PLASTICS n.v.**  
**Nolimpark 4004**  
**B-3900 Overpelt**

takes the necessary measures in order to ascertain that the products:

**Shallow inspection chambers of Polypropylen: the maximum installation depth tolerated, measured from the base, is 2 m**

manufactured in the factory located at:

**DYKA B.V.**  
**Productieweg, 7**  
**NL - 8331 LJ Steenwijk**

may correspond with the performances described in the standard **NBN EN 13598-1**

**Plastics piping systems for non-pressure underground drainage and sewerage - Unplasticised poly(vinyl chloride) (PVC-U), polypropylene (PP) and polyethylene (PE): Specifications for ancillary fittings including shallow inspection chambers**

The certificate is delivered based on a study and an acceptance of the relevant **initial type tests (ITT)**, executed on relevant samples taken from the production unit and on bases of an initial inspection of the production and the **factory production control system (FPC)**.

BCCA confirms that the manufacturer applies a valid production control system and executes regular testing on samples taken from the production according to a fixed testing program. BCCA supervises the production and the production control system during the yearly audit of the FPC, periodical control of the internal control results and witness-testing.

On bases of the delivery and the maintenance of this certificate, the manufacturer is authorized to use the BENOR-logo as a means to attest the conformity of his products.

This certificate is valid during the period mentioned left side of this document, provided that the specification of the standard and the regulatory conditions are not modified.
